*The Bellingham Herald*

*23<sup>rd</sup> January 1909*

Because he made a “surreptitious entry” into the United States through the medium of a blind baggage, **Donald Bremner**, alias **John White**, who is declared by the police to be a professional “vag”, was taken to Seattle today by **Immigration Inspector Hamer** and will be deported to British Columbia, whence he came to Bellingham the night before last. **Inspector Hamer** says that the man, who was born of Scottish parents in India, did not secure the required papers and therefore can be sent back to Canada.

**Bremner** was picked up by **Patrolman Qually** Thursday night, and only a few minutes after he had alighted from the Great Northern Owl train from the north. Yesterday he was taken before **Police Judge Featherelle** and fined \$17.75, including costs, the default of which he was placed in the city jail. Chief of Police Code immediately communicated with **Inspector Hamer**, and after an investigation this morning the latter found that **Bremner** could be deported.

A search of possible births in India turns up **Donald Price Bremner**, born in 1883 and possibly a son of **Duncan Scott Bremner** and **Sarah Pritchard**, although this connection is as yet unproven.
