2. i **John Bremner** #5048 b. c 1800.
3. ii **James H. Bremner** #12882 b. c 1803.

There is some dispute as to whether this parentage is correct. Both son **John** and **James'** death certificates give parents names as being **Alexander Bremner** and **Isabella Rae**, but some researchers believe this to be incorrect, and that the parents may be **Alexander Bremner** and **Ann Peter**. While it is true that the couple had a son **James Henderson Bremner** and a son **John** born about the same time as the two sons mentioned below, I think that is simply coincidence, and in the absence of actual proof, I continue to believe in the certificate death registry informants' parentage claims. I'd be happy to be **proven** wrong!
